

Dear Sirs: I am deeply troubled that the Biennial Review of Media Ownership has not been reported enough to the American People. I am aware that you have deadlines to meet which were set up by Congress, but never forget-- ultimately you are responsible to us-- The American Public. I believe that you are doing a great disservice to us by pushing to get this Review done 'on time'. I understand YOU feel that the information in your report is complete, but let me assure you, it will never be complete until a majority of Americans understand exactly what the implications of your actions will mean. The fact that the media hasn't picked up and reported this story is the most disturbing trend of all. It shows specifically how much power they have to bury a story if it is in their interest to do so. This means to me that if there are only a few voices in the Media (if a few own a majority of the outlets), then the American Public will be in a manipulated, uninformed, scary position. We cannot let that happen. It is your duty to keep that from happening. I strongly urge you to postpone your decision until the story gets out there to the public, or to ultimately decide to NOT relax the rules. Do not let a minority of media companies own a majority of the outlets. Thank you.
